Abstract

Malachi is a decentralized all-in-one ecosystem on the Ethereum Blockchain. Malachi aim to take the blockchain ecosystem to new heights by providing many facilities under a single platform. Malachi will be a whole ecosystem that will provide features decentralized ecosystem, Malachi Coin, Malachi Exchange, and most importantly the Malachi is the worlds first decentralized currency that allows its shares holders to build credit and leverage the power of life insurance.

The principal value proposition for investors in Malachi is exposure to a new brand of the community-funded crypto movement. By Becoming a part of the Malachi community, investors are joining a revolution foremost motivated by the spreading of goodwill and execution of common goals between like-minded individuals. Malachi has been created with the vision of becoming a virtual currency for the future of payments on a global scale.

Introduction

Malachi is an all in-one decentralized platform of the modern world based on the Ethereum blockchain. Malachi is designed as a high-performance to provide many services on one platform. We will offer Holding, Swap, and exchange of multiple cryptocurrencies by using our ecosystem.

Malachi operates on the ethereum Blockchain, which is safe, quick, and based on a proof of hold algorithm. Malachi ensures that user assets are safe by deploying security technologies. The platform employs a secure wallet and a double-checking technique to store all digital currency user hold on our platform.

We develop blockchain-based DEX with everything in one place using a lightning-fast transaction, and practically minimal costs. Our Exchange operates on the blockchain, which has much cheaper transaction fees than others. and it makes connecting and conducting transactions simple, breaking any user-to dominate cryptocurrency's future world. A Malachi decentralized exchange (DEX) is a peer-to-peer platform that allows users to trade cryptocurrencies directly with other users without the need for middlemen.

Malachi provides consumers with a best-in-class experience through the usage of our unique ecosystem. Malachi enables our users to exchange their tokens for any linked cryptocurrency. Malachi allows consumers to trade without going via a Centralized Exchange. we are going to launch on Ethereum blockchain to create a more secure and efficient ecosystem.

We are developing a platform that will enable users to purchase and sell shares of companies in real time at the best price on the market. Company trading is a large market with numerous trading systems, including purchase, sell, buyback, etc.

Vision

We envision a world where people can get everything they need in a crypto ecosystem which is based on proper monetary rules and a stable decentralized foundation.

Our Vision is to create an all-in-one platform to attract more people to digital assets by allowing them to earn money through a Crypto-centric swap ecosystem having facilities of Holding, buy& sell shares, and exchange along with its community operated ecosystem based on ethereum blockchain while maintaining their privacy, security, authority, and autonomy.

VISION

MISSION

Creating a Blockchain ecosystem that provides a quick, easy, and secure method to trade, invest, and hold that will empower users through our universally accessible and fully decentralized financial ecosystem. Malachi aims to realize the actual potential of decentralized finance.

- Provide easy and effective solutions for all holders to obtain exposure to digital assets.
- To become top of the line in crypto world.
- Reduce the Chance of fraud and rug pull.
- Operate as a truly decentralized, community-focused, and community-driven digital asset.

MISSION STATEMENT

Community-Focused

Growing the GreenDAO network by the people for the people

Innovation

To be the world's most crypto-centric platform

All in one Ecosystem

Providing all facility under an umbrella

Holding

Malachi holding works on the Ethereum blockchain. By utilizing comprehensive security methods, Malachi assures that users' money is secured. At the time of writing, our holding technique is undoubtedly one of the safest and most environmentally friendly ways to make passive income. The platform uses a secure wallet and a double-checking method to hold tokens.

As more people, especially institutional investors, recognize the crypto market's profitability and efficiency, Holding is gradually becoming a primary method of obtaining passive income by simply holding or locking funds & tokens in a wallet/smart contract.

Holding is beneficial in Malachi since it provides incentives and passive revenue in shape of credits and life insurance backed currency by holding tokens on our exchange. Holding a token and in the pool is the most convenient option in a decentralized environment. Malachi plans to distribute shares as a reward for holders.

Benefits of Holding

NO HARDWARE IS REQUIRED

Unlike proof of work, there is no need for specific equipment or hardware for Malachi holding. Proof that Holding works without the need for any special equipment. The only requirement is to Hold the Malachi token for an interval of time by the holders on our exchange.

SCALABILITY

Scalability is a term that is frequently used in the Blockchain ecosystem. It refers to a computational process's potential to be used to generate in a variety of ways. Proof of hold protocols, as shown by Malachi in higher transaction outputs and lower fees, make for greater scalability.

MORE COST-EFFECTIVE

Proof of hold blockchains are usually low-cost and low-energy systems that don't require any special or expensive hardware. POH is less expensive and less harmful to the environment than proof-of-work chains. So, the holders can earn more passive income by using the Malachi platform.

PASSIVE INCOME

Stakeholders earn our token by holding and controlling their digital wealth. The incentive for keeping is passive income for the recipient.

ECO-FRIENDLIER

One of the major benefits of holding Malachi is that it doesn't need a continuous supply of energy to validate the Transaction. As a result, it is environmentally friendly.

SECURED BY SMART CONTRACT

The biggest issue in the modern world is security and privacy, and Malachi provides a swift and stable portal that is backed by the Malachi ecosystem making him superior to others. Malachi offers a highly secure and fast platform to the users for holding crypto.

Trading Platform

A decentralized platform on blockchain where users will be able to buy & sell shares satisfying the needs of fully decentralized ecosystem. Malachi will launch its own blockchain making it more secure, easy and convenient to connect and process transactions, breaking any user-touchable space close to the future world the dominant cryptocurrency.

we are creating a platform where user will be able to buy and sell shares of desired companies at the best price available on the market, in real time. Company trading is a big market and it has many system by which companies trade such as buy, sell, buyback etc. While all these systems are effective in their own way they have one common problem with them which is scalability.

The biggest problem which we are solving is Scalability where our system will scale in real time and it will be able to handle millions of users who want to sell or buy shares of their desired companies. Our platform is also designed to be used by both small and large sized companies. We plan on letting small businesses use the system for free, this is due to the fact that small businesses can finally open their own stock market on a much wider scale and their shares can be traded in real time, on a platform where they can keep track of their company's capital.

Exchange

Malachi guarantees outstanding speed token processing and extremely low transaction fees so that the community can easily exchange their currency into desired one. Malachi is an easy, fast, and secure exchange creating a completely new ecosystem, built to facilitate a crypto derivative market where users have access to many crypto enabling a highly liberating, strategic, low-risk, and seamless exchange of cryptocurrencies in a truly decentralized way.

Our crypto exchange is one of the market's fastest and safest crypto exchanges. We offer a secure and easy-to-use platform for people from all around the globe to trade cryptocurrencies. With quick registration, great customer service, and excellent security measures, it has never been easier for you to trade on one of the best exchanges out there!

Malachi Exchange is a genuinely decentralized, easy, fast, and secure exchange. The Exchange is non-custodial, meaning users control their private keys when transacting on our DEX platform.

Advantages

KYC/AML

KYC/AML (Know Your Customer and Anti-Money Laundering) compliance is the norm for OUR exchanges. For regulatory reasons, individuals must often submit identity documentation and proof of address. Our DEX doesn't demand any documents for verification purposes make the user completely anonymous

Additional Features:

- Powerful Matching Engine Multi-layer Security
- AML Verification
- Admin Panel
- Support Team

Why Choose Malachi?

Transparency & Immutability

Every transaction inside the Malachi ecosystem is recorded on the Ethereum blockchain. An audit trail is provided to track where Malachi is transferred. It can assist with security and fraud prevention in exchange-related firms and verify the legitimacy of the exchanged assets.

Security

Our key goals are safety, security, and trustworthiness. The multiple benefits provided by our system based on blockchain and smart contracts make it increasingly difficult to breach its security. We survive by staying on the cutting edge of technical security.

Community-Focused

Community is the priority of Malachi ecosystem. In the beginning, we asked if a project could succeed on the back of a decentralized, community effort. The members of the community and the investors of Malachi are its power and strength which makes it a privileged platform with the collaboration of a community that is the soul of the project.

Gas Fees

We are providing an opportunity for investors with a platform with low gas fees as compared to their competitors in the market.

GLOBAL IMPACT

Anyone can become a part of Malachi. Malachi has the extra value of being entirely safe and transparent, allowing it to be utilized freely across borders. It will make everyone more financially connected, empowered, and enabled.
